

FIXTURE RULEBOOK

A Tiny Game of Testing

In the beginning there was only the void, and from the void came the Testers, who shaped worlds from pure assertion. This is their story.

Attributes

Every character has three core Attributes, rated 1 to 5:

Might · physical power and endurance.

Cunning · wit, memory, and problem solving.

Grace · agility, poise, and social finesse.

Default value for each Attribute is 2 unless otherwise assigned.

Abilities

Characters may take any of the following Abilities:

Athletics (linked to Might)

Lore (linked to Cunning)

Stealth (linked to Grace)

Each Ability chosen at character creation starts at rank 1.

Resolving Actions

To resolve an action, roll a pool of six-sided dice equal to the relevant Attribute plus Ability rank. Each die showing 5 or 6 is a success. You need at least one success to succeed at the action.

Character Creation Process

1. Choose your character's Name.
2. Assign Attribute dots: distribute 6 dots among Might, Cunning, and Grace, no Attribute above 4 at creation.
3. Choose two starting Abilities from the Abilities list and set each to rank 1.
4. Choose a Background: Wanderer, Scholar, or Guardian.
5. Write a one-paragraph Backstory for your character.
